ABOUT ME

A motivated recent SPM graduate currently pursuing a Diploma in Computer Science, with a strong foundation in Mathematics, Science, and computer science-related subjects. Passionate about technology and eager to expand knowledge in programming, system development, and digital technologies. Quick to adapt to new environments, with good problem-solving skills and a strong willingness to learn and gain practical experience in the field.

EDUCATION

Universiti Teknologi Malaysia (UTM) – Diploma in Computer Science

Expected Graduation: 2028

- Relevant coursework: Relevant Coursework: Programming Fundamentals, Digital Logic Design, Computer Organization, C++ Programming, Data Structures and Algorithms, Discrete Mathematics, Database Systems, and Web Programming.

Sekolah Menengah Kebangsaan Raja Abdullah – SPM 2024/2025

- Subjects: Bahasa Melayu, English, Mathematics, Additional Mathematics, Computer Science, History, Prinsip Perakaunan, Pendidikan Agama Islam

Projects / Assignments

- Developed C++ programming projects focusing on problem-solving and algorithm implementation
- Designed and implemented database systems with structured data management and query operations
- Built responsive web development projects using HTML, CSS, and basic backend integration

EXPERIENCE

President - Peer Guidance Club (Jan 2022 - Dec 2025)

- Led club meetings and organized peer support sessions for students
- Coordinated with school counselors to run mental health awareness programs
- Strengthened leadership, empathy, and communication skills

Vice President (Jan 2024- Dec 2025)

- Led brainstorming sessions and helped mentor junior members
- Participated in preparing projects for school-level innovation showcases
- Developed creative thinking and presentation skills

Participant- Minecraft Coding Competition 2024

- Designed and applied logic and creativity to solve in game challenges

Participant - MyDigitalMaker Fair (International level)

- Explored programming concepts through hands-on learning stations

LANGUAGES

- English : Good (spoken & written)
- Malay : Fluent

SKILLS

- | | | |
|--|--|--|
| • Familiar with basic programming | • Proficient in Microsoft Office | • Good communication and teamwork skills |
| • Knowledge of logic gates and digital systems | • Fast learner & adaptable to new tech | • Able to work under pressure and meet deadlines |
